HYCON HPP18E – 40 L POWER PACK

ELECTRIC

COMPACT AND STURDY DESIGN

INTEGRATED OIL-COOLER

PRODUCT FEATURES

HYCON HPP18E is equipped with an 11-kW motor and is available as a 30 lpm and a 40 lpm version. The perfect power pack for professional and specialized companies within concrete drilling, cutting, and others.

The HPP18E has a slow start function reducing the load during start. Thanks to the integrated oil cooler, it needs no water cooling, which is a great advantage – especially in winter.

Despite the strong motor, the HPP18E is compact and easily transported in any van.

It is strongly built and can work even under the toughest conditions.
