HYCON HPP18V MULTIFLEX POWER PACK

THREE OUTLETS

OPERATES TWO TOOLS INDEPENDANTLY

PRODUCT FEATURES

HPP18V Multiflex is built on the same platform as the HPP18V Flex but with a tandem gear pump for two independent outlets.

A 3rd outlet where the two pumps are connected for a flow up to 40 lpm makes it perfect for the operation of two 20 lpm tools independently or one 30-40 lpm tool with full performance.

This power pack has as many as eight different flow settings. In other words, MULTIFLEX can operate any tool!

With both electric and recoil start, it can be started, even if the battery is dead.

HYDRAULIC POWER PACK HPP18V MULTIFLEX

CE

Item no.	**2020118**
