HYCON HPP26D MULTIFLEX POWER PACK

THE PREFERRED DIESEL CHOICE
FOR HEAVY DUTY TASKS
RUNS CONTINOUSLY FOR MANY HOURS

PRODUCT FEATURES

The HPP26D Multiflex is the most powerful diesel-driven power pack in the HYCON product range. The power pack is powered by a durable 26 hp water-cooled Kohler engine that delivers an output flow of either single flow of 1 x 20, 30, 40, 60 lpm or dual flow of 2 x 15, 20, 30 lpm.

The power pack is the preferred all-round power pack for areas where electric or petrol-driven engines are not allowed and where you need a power pack that can run continuously for many hours without a stop.

The power pack is the preferred choice for heavy-duty tasks, as it can handle even the most demanding tools and jobs. The dual flow is perfect when you want to run two tools simultaneously, for instance, an 18" saw and a breaker or two 30 lpm pumps.

Not CE nor EPA approved – only for sale outside of EU and USA.
